

Electric heater CORE THERMO ASPEN

CORE THERMO ASPEN is designed to provide flexibility in a compact sauna heater. Its build makes it perfect for apartment saunas or other smaller sauna spaces while providing a pleasant, soft steam. The Core is fast-heating and has the added benefit of an extremely short safety distance (4cm from the stove exterior), so the risk of burning oneself is almost non-existent.

What makes the HUUM Core particularly unique is that it is customisable depending on the interior of your sauna room and your preferences. It comes in either black or silver steel casing and has the option of additional timber cladding in a beautiful Thermo Aspen. You can customise your own cladding to suit your space - choose from ceramic tiles, stone, wood, and more.

ALSO REQUIRED:

- Stones
- Touch screen control unit

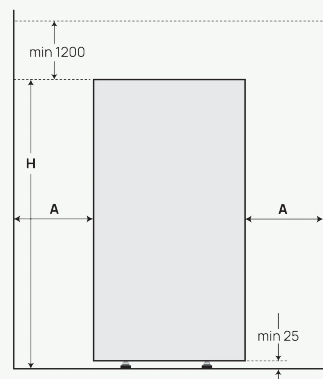

OPTIONS:

- Embedding flange
- Thermo aspen cladding

CORE THERMO ASPEN technical data

HEATER	6kW	9kW	10.5kW
Sauna room	6 - 10 m ³	9 - 15 m ³	10 - 20 m ³
Stone capacity	30 kg	30 kg	30 kg
Weight	19 kg	19 kg	19 kg
Height	830 mm	830 mm	830 mm
Width (without casing)	400 mm	400 mm	400 mm
Depth (without casing)	400 mm	400 mm	400 mm
POWER			
Supply voltage	3/N ~ 400 V*	3/N ~ 400 V*	3/N ~ 400 V*
Amperage	10 A	16 A	16 A
SAFETY DISTANCE			
A	40 mm	40 mm	40 mm
B	480 mm	480 mm	480 mm

*In the case of a 230 1N connection, an analogous connection is made to the 3-phase. The heating circuits must be connected before the circuit breaker.
